**AGENDA**

1. In order to comply with the City's Municipal Separate Storm Sewer System (MS4) Permit, significant changes are required in the City's Stormwater Ordinance. The City's Engineering Department has been working with Amec Foster Wheeler (AFW), an engineering consulting firm, to determine a best course of action for the City of Gallatin. Andrew Reese, PE and Vice President for Water Resources with Amec Foster Wheeler, will present information on a Stormwater Utility for Gallatin. A Stormwater Utility would provide a funding source to plan, build, and manage stormwater infrastructure. **(Nick Tuttle, City Engineer)**
