

McLanahan Corp. is hosting Gallatin clean-up day Saturday, September 20th from 9:00 am - 12:00pm

Tennessee facility employees and City Citizens are encouraged to participate in a volunteer clean-up day in Gallatin on **Saturday, September 20 from 9:00 am – noon.**

At the heart of many effective community partnerships are the individual efforts and time that company employees give as volunteers in community service. If you are interested in signing up for this volunteer project please contact Brianna Nightingale.

Gloves, trash bags and water for volunteers will all be provided by the city of Gallatin through their Stormwater Program. The main goals of the Stormwater Program are to prevent waste and litter from entering our water system.

We will most likely focus on the area between our building, on Airport Road, and Steam Plant Road during our clean-up.

Everyone is welcome and encouraged to participate.

Please let me know if you and your family are interested in participating.
