

Typically, when a building code mandates a minimum width, it is expected that the width be the clear, net, usable, unobstructed width. In this case, however, limited projections into the minimum width are acceptable where located at or below the height of the handrail.

4 1/2" MAX PROJECTION ON EACH SIDE INTO REQUIRED 36" STAIRWAY WIDTH. OTHER PROJECTIONS OF 4 1/2" OR LESS PERMITTED BELOW HANDRAIL HEIGHT

36" MIN LANDING

MIN RUN 10"  
MAX RISE 7 3/4"

6'-8" MIN  
34" - 38"

36" MIN LANDING
