

Join us and make a 'TREE'mendous Impact!

The Tennessee Environmental Council is partnering with Middle Tennessee communities to make a 'tree'mendous impact in our area by planting 5,000 trees across Middle Tennessee.

"He who plants a tree plants hope." ~Lucy Larcom, "Plant a Tree"

Communities with more trees have less crime, less lung disease, people have a greater sense of community when trees are present, and trees increase one's sense of well-being. Healthy trees and forests provide clean air and clean water, recreational opportunities, and an enhanced quality of life for all Tennesseans.

We'll be planting trees along creeks and streams in urban areas. This effort will greatly improve the health of the waters by increasing natural vegetation to reduce erosion and shade the water making it more hospitable to fish and other aquatic life.

Gallatin Location Details:

Saturday March 17th, 2012

8:30 am – 9:00 am Volunteer Registration

9:00 am – 1:00 pm Tree Planting

1:00 pm – 1:30 pm Clean Up and Debrief

Where: Triple Creek Park, 1350 East Broadway Gallatin, TN 37066
(follow the entrance road to rear of park)

VOLUNTEERS are needed!

Individuals, Church Groups, Scouts, JROTC, Families, Gardening groups, and Businesses

How do I sign up? This event is free and open to the public. Please register online at www.tectn.org

What do I wear? Dress appropriate for the weather and bring rain gear gloves, work boots, shovels and drinking water/snacks.

Tennessee Environmental Council's Tennessee Tree Project has a goal of planting or caring for **1 million** native trees in Tennessee. The Watershed Support Center works with local communities to educate, conserve and restore watersheds, including healthy urban forests for people, plants and animals.
